Subject: Re: Dimock Residential GW Site Preliminary Results

About how many samples are left to run?

Subject: Dimock Residential GW Site Preliminary Results

Preliminary results for the Dimock Residential GW Site are included in the attachment. Included are results on the priority constituents from all labs, where available.

Updates:

All expedited compounds have preliminary results for samples included on pages 1-6. These pages have been removed to reduce file size of report.
Additional DEHP, ethylene glycol, methane and total coliform entries (all indicated as below trigger level) (pages 7-13).

Results at or above trigger levels (updated since 2/16/12):

No new results at or above trigger levels.

Report Files:

A separate email will follow with final reports that have been placed on the R03FTPUser site in directory EPA Laboratory.

Please contact me at 410/305-2732, or Robin Costas 410/305-2659, if you experience delivery problems with this report. A copy of this e-mail will be retained in the case file.
